Indya Women Indian Wear Online

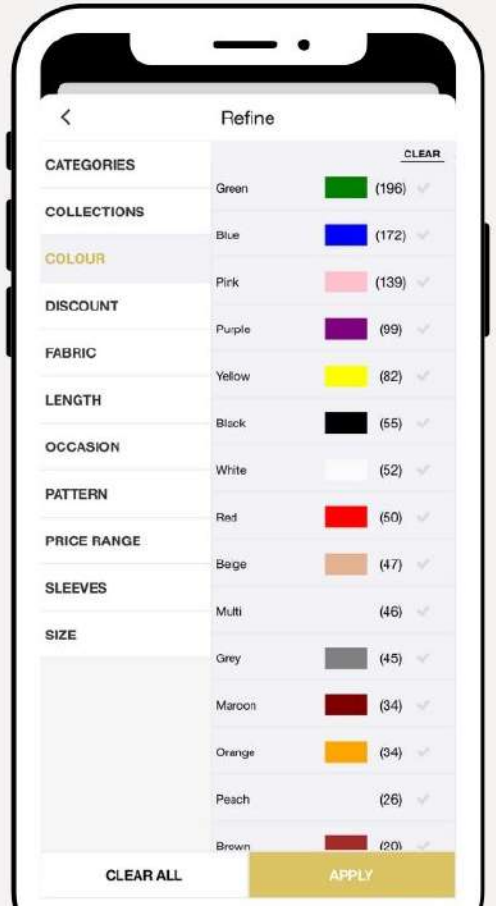
Hybrid Apps (Android and iOS)

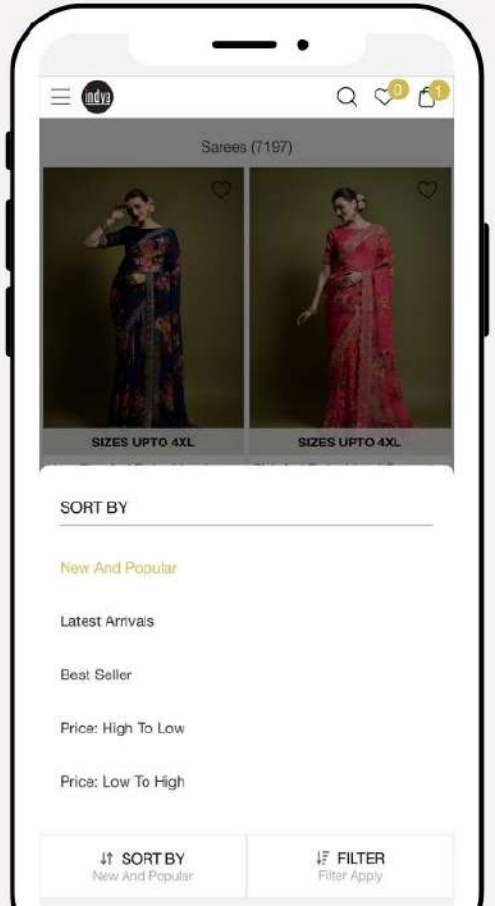
1M+ Downloads

Android Link, iOS Link

indya

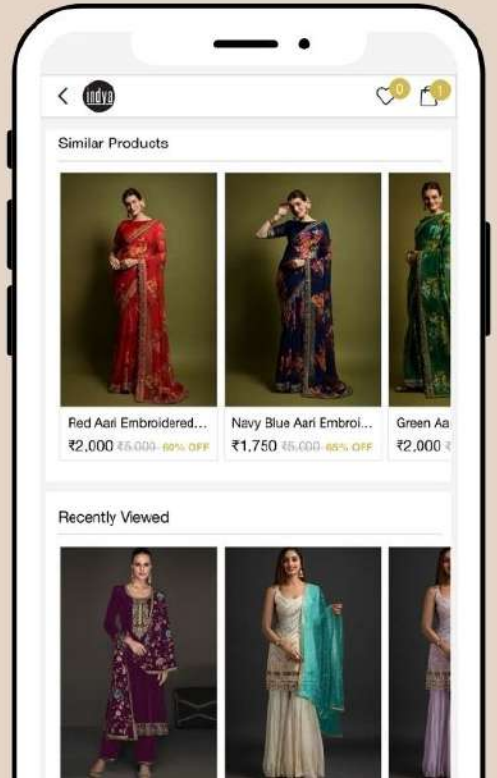
Built an intuitive product catalog with dynamic filters and sorting options, enabling users to effortlessly browse and select products.

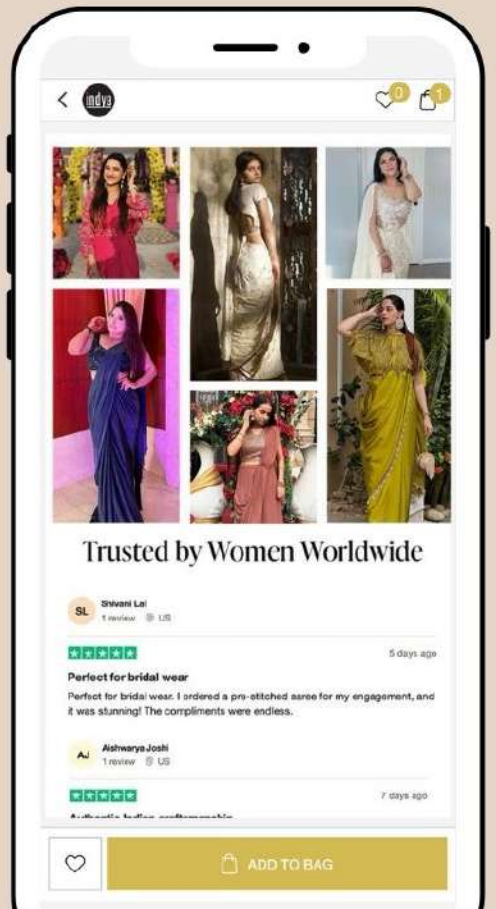




indya

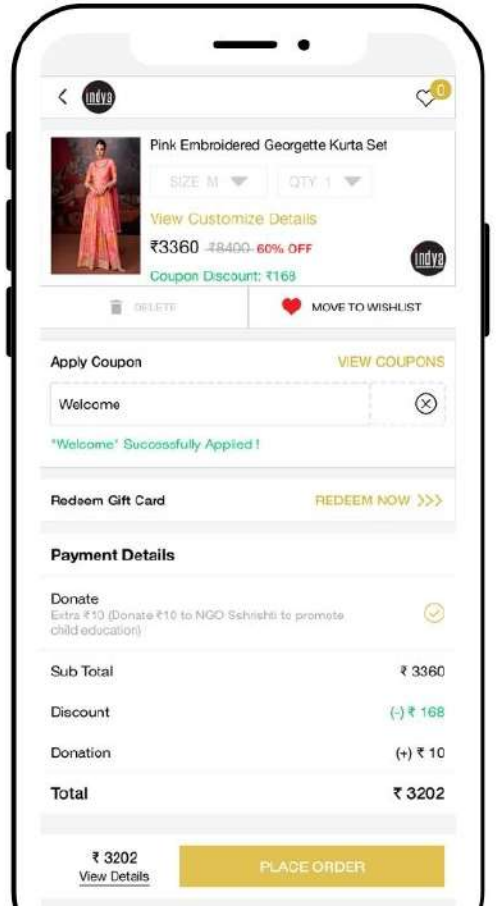
Introduced a 'Recently Viewed Products' section to boost engagement and drive exploration. Enabled reviews, ratings, and comments to build trust and provide valuable customer insights.

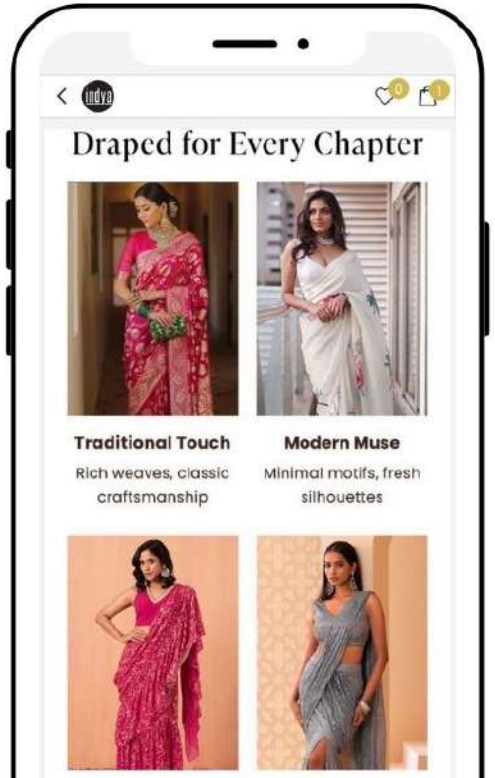


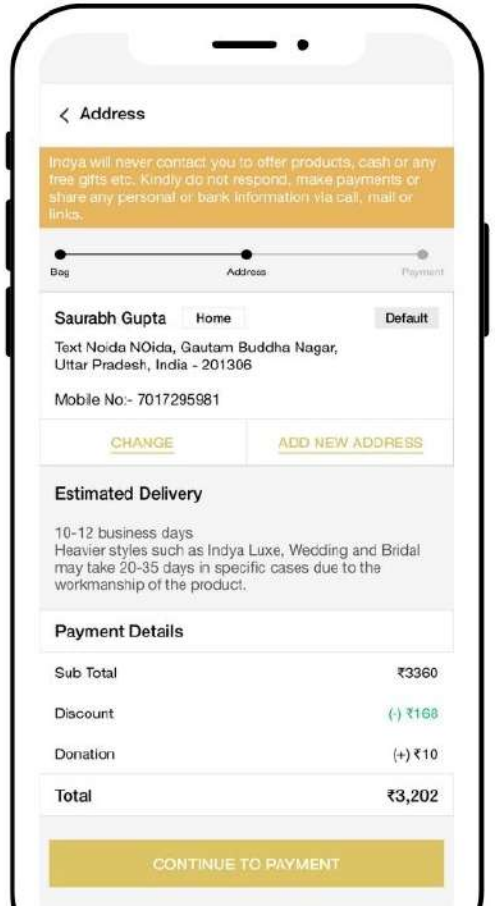


indya

Developed a smart cart system where users can easily redeem gift codes and apply coupon codes for exclusive discounts.

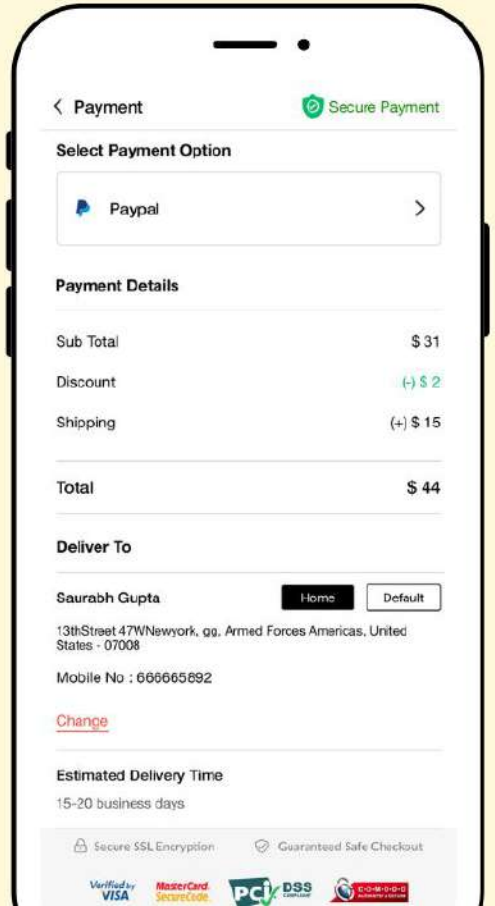


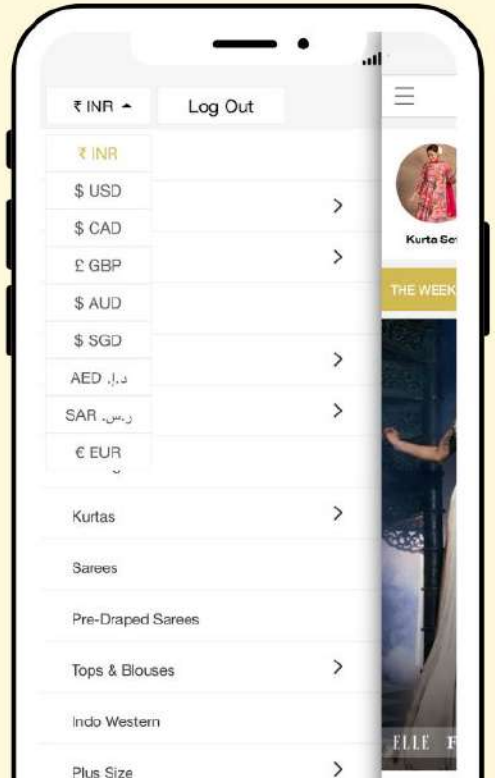


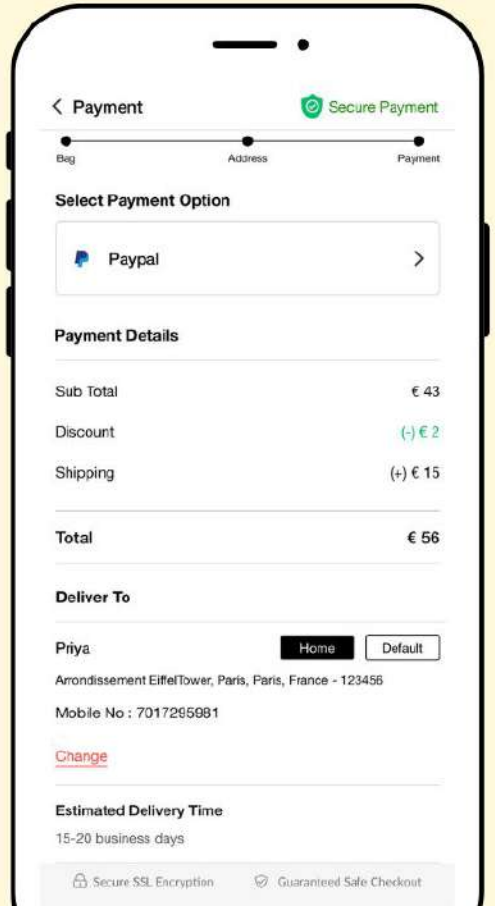


indya

Integrated multi-currency and international payment options, making it easier for users from different countries to make seamless transactions.







indya

Developed a versatile payment gateway supporting UPI, wallets, and net banking to offer users multiple secure payment options

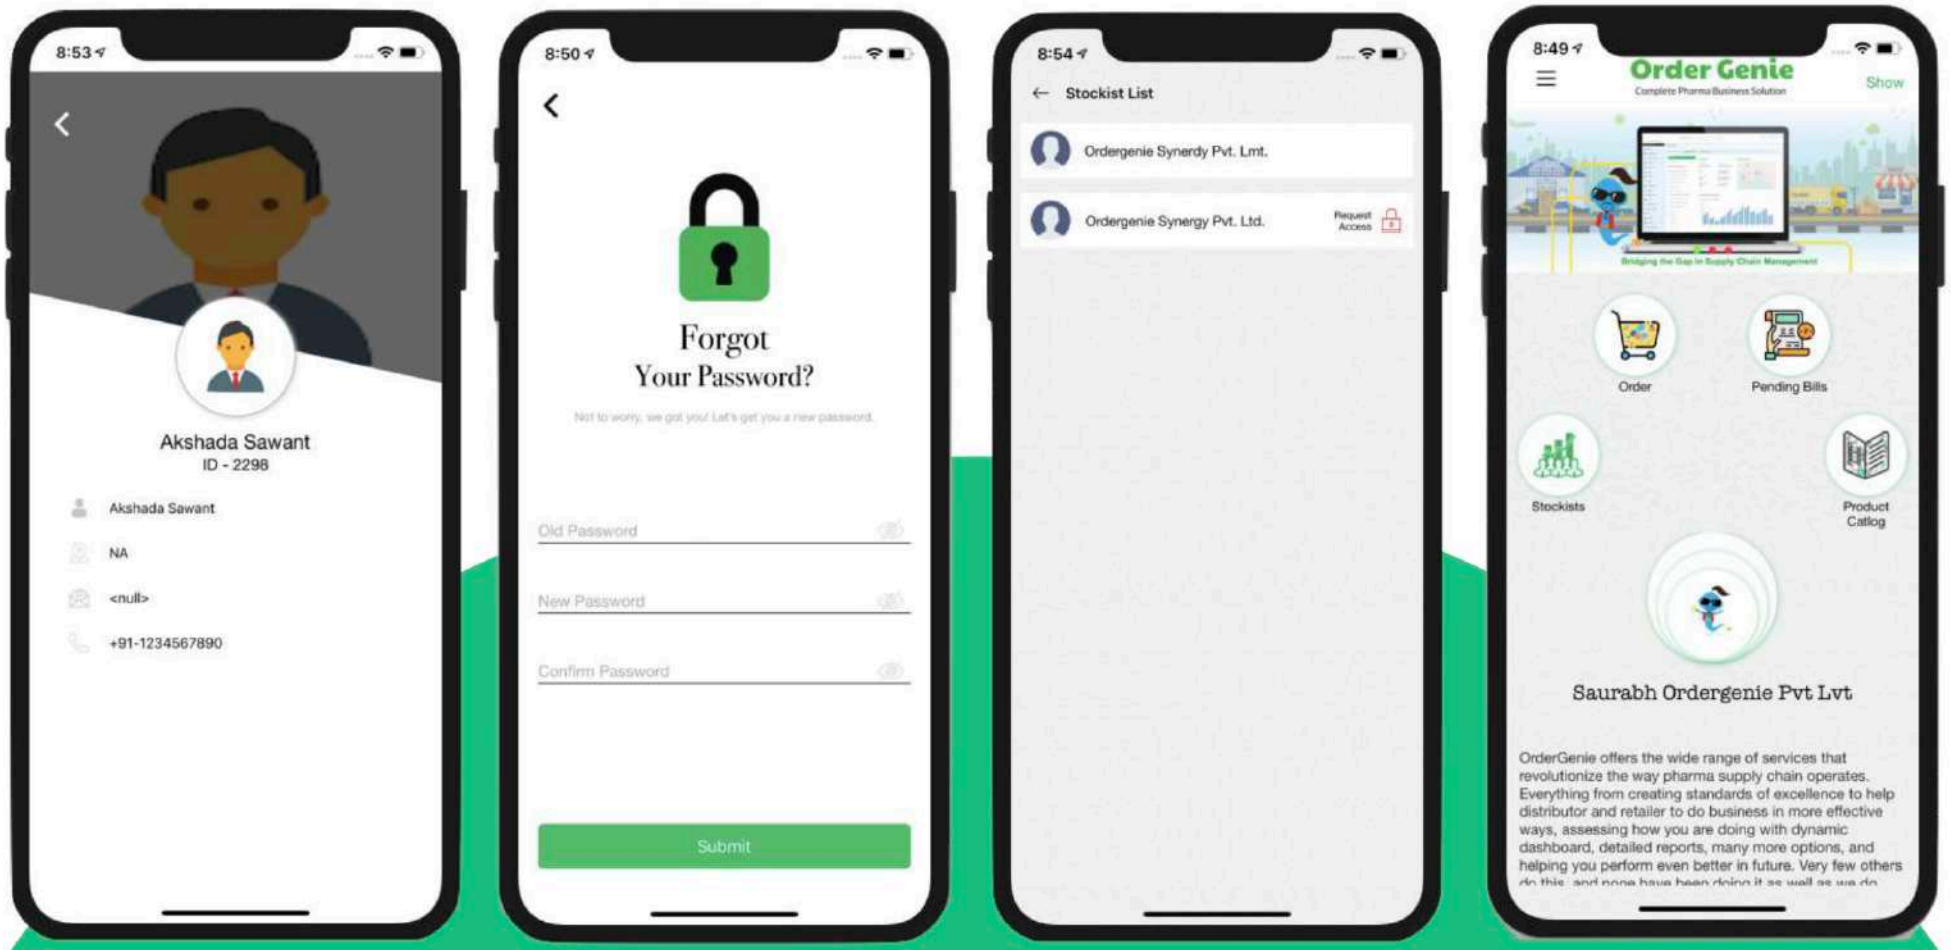
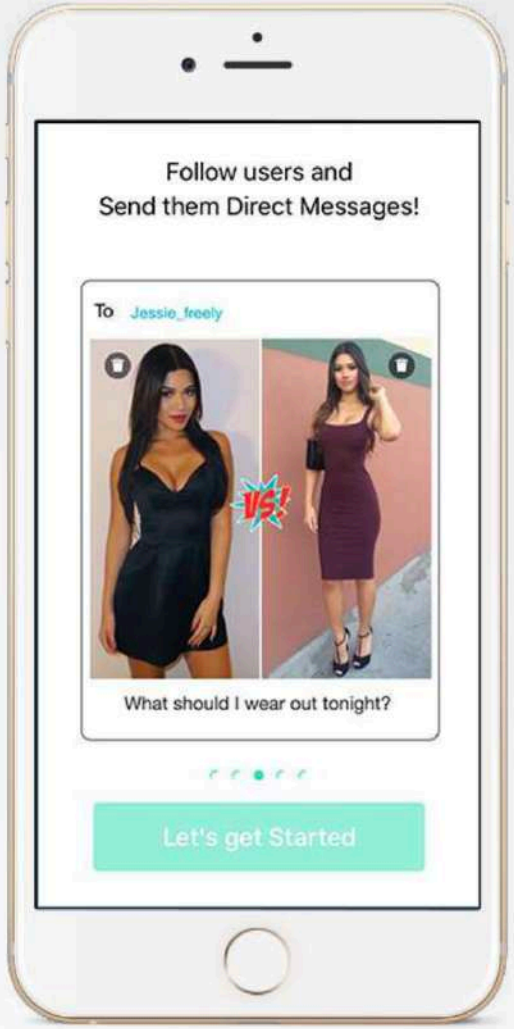
Order Genie - Salesman

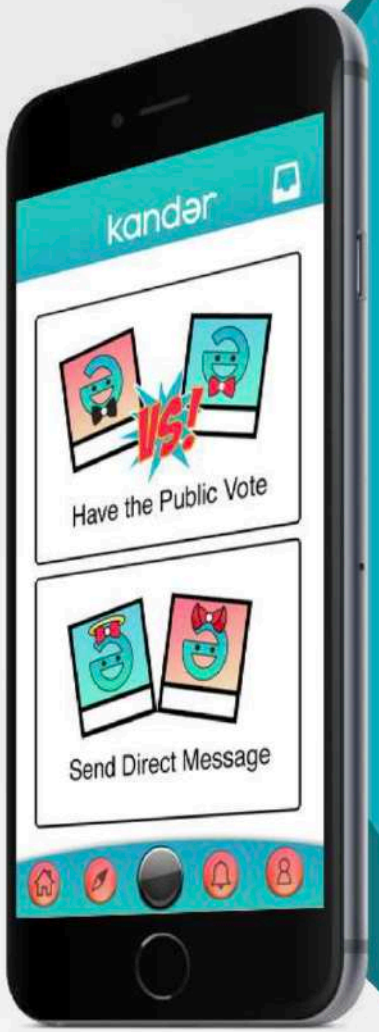
OrderGenie offers the wide range of services that revolutionize the way pharma supply chain operates. Everything from creating standards of excellence to help distributor and retailer to do business in more effectiv ways, assessing how you are doing with dynamic dashboard, detailed reports, many more options, and helping you perform even better in future. Very few others do this, and none have been doing it as well as we do.



Order Genie - Retailer

OrderGenie offers the wide range of services that revolutionize the way pharma supply chain operates. Everything from creating standards of excellence to help distributor and retailer to do business in more effective ways, assessing how you are doing with dynamic dashboard, detailed reports, many more options, and helping you perform even better in future. Very few others do this, and none have been doing it as well as we do.





Kander - Snap Share Pic

Project Details: Kander is a peer-to-peer polling community. Kander is an opinion sharing app that allows users to post two images side by side to obtain opinions through a simple interface. You can snap pictures or select them from your library and apply filters, add digital stickers and emoji icons. You can write captions to give your pictures context, and share them with the public or individual users. We aim to be community where opinions can be shared freely and easily!.
